

CuisineEase — Simple Testing Guide

Who is this for? Anyone testing CuisineEase — no technical skills needed. You only need a phone or computer, a web browser, and an email address. Follow each step in order.

Website to test

Item	What to use
Main website	https://www.cuisineease.com
Browser	Google Chrome (recommended), Firefox, or Microsoft Edge — latest version
Email	A real email you can open (for codes and password links)
Phone number	Cameroon format, e.g. +237 677 123 456 (must start with +237)
Password rules	8 to 20 characters · at least one number · at least one special character (like ! @ #)
Example password	TestPass1!

Important tips before you start

- Use **two browsers** (or one normal window + one private/incognito window): one for the restaurant manager, one for the customer.
- Write down every email and password you create.
- Check your **inbox and spam folder** for emails from CuisineEase.
- If something does not work, take a **screenshot** and note the exact step number.

What are you testing?

User type	What they do on CuisineEase
Restaurant manager	Registers a restaurant, adds food to the menu, manages orders, tables, and reservations
Customer	Creates an account, browses restaurants, orders food, pays, books tables, and leaves reviews
Visitor (no account)	Browses the public website, reads about CuisineEase, and sends a contact message

Recommended test order (follow this sequence)

1. Register a **restaurant** (creates the manager account)

2. Manager sets up **menu items** and **tables**
3. Register a **customer** account (in a different browser)
4. Customer **browses, adds to cart, and pays**
5. Manager **updates the order status**
6. Customer checks that the **order status changed**
7. Test **table booking, reviews, profile settings**, and the **contact page**

PART A — Restaurant manager testing

1 Open the registration page

1. Open your browser and go to **<https://www.cuisineease.com>**
2. Click **Register** (top of the page), or go directly to:
<https://www.cuisineease.com/auth/register>
3. On the welcome screen, click the **Restaurant Admin** option (the one with the shop icon)

✓ **You should see:** A page titled “Register Your Restaurant” showing “Step 1 of 3”.

2 Step 1 of 3 — Restaurant details

Fill in every required field, then click **Next**.

Field	Example to type
Restaurant name	Test Kitchen Buea
Description	A friendly test restaurant for CuisineEase testing
Restaurant email	bistro.test@example.com
Restaurant phone	+237 677 111 001
Restaurant type	Pick one from the list (e.g. Restaurant)
Cuisine types	Tick at least one (e.g. Cameroonian)

3 Step 2 of 3 — Location & opening hours

1. Fill in **Street**, **City** (e.g. Buea), and **Country** (Cameroon)
2. Latitude and longitude may fill in automatically — if not, use **4.15** and **9.24**
3. Under **Booking days**, tick at least Monday through Saturday
4. Set **Opening hours** (e.g. open 08:00, close 22:00)
5. Tick **This restaurant offers delivery** if you plan to test delivery orders
6. Click **Next**

4 Step 3 of 3 — Manager account

Field	Example to type
Manager full name	QA Manager
Manager email	manager.test@example.com (<i>write this down — you will need it</i>)

Manager phone	+237 677 111 002
---------------	------------------

Logo and cover photo are optional. Click **Register restaurant**.

✓ **You should see:** A “Check your email” page telling you to open the email sent to your manager address.

5 Set your manager password from email

1. Open the email inbox for the manager email you used
2. Look for an email from CuisineEase (check spam if needed)
3. Click the link in the email to **set your password**
4. Choose a password that follows the rules above (e.g. **Manager1!**)

If you do not receive the email within a few minutes, go to <https://www.cuisineease.com/auth/forgot-password> and request a new link.

6 Log in as manager

1. Go to <https://www.cuisineease.com/auth/login>
2. Enter your manager email and password
3. Click **Sign in / Login**

After login, one of two things will happen:

- **Application under review** — Your restaurant is waiting for CuisineEase team approval (can take up to 48 hours). This is normal for new restaurants. Contact the CuisineEase team if you need the account activated for testing.
- **Manager dashboard** — You go straight to the manager area. Continue to Step 7.

7 Add a food item to the menu

1. In the left menu, click **Menu**
2. Click the **Add New Menu** button (top right)
3. Fill in the form:
 - **Name** — e.g. Grilled Chicken
 - **Category** — pick one (e.g. Main Course)
 - **Price** — e.g. 3500 (in XAF)
 - **Description** — short description of the dish
 - **Image** — upload any food photo
 - Leave other fields as default if unsure
4. Click **Save**

✓ **You should see:** The new dish appears in the menu list. Try clicking **Edit** and **Delete** on a test item to confirm those work too.

8 Add a table (for reservations)

1. In the left menu, click **Tables**
2. First, create a **section** (e.g. name it **A** — use a capital letter)
3. Then click **Add table**
4. Choose the section, set **seats** to 4, and save

✓ **You should see:** Your new table listed on the Tables page.

9 Quick check — manager pages load correctly

Open each item in the left sidebar and confirm the page opens without errors:

Page	What to check
Overview	Dashboard loads
Menu	Your food item is visible
Orders	Page opens (may be empty until a customer orders)
Reservations	Page opens
Tables	Your table is listed
Inventory	Page opens
Staff	Page opens

Reviews	Page opens
Notifications	Page opens
Settings	Page opens

PART B — Customer testing

Use a private/incognito window or a different browser so you are not still logged in as the manager.

10 Register a customer account

1. Go to **<https://www.cuisineease.com/auth/register>**
2. Click **Customer** (the person icon)
3. Fill in:
 - **Full name** — e.g. Test Customer
 - **Email** — e.g. customer.test@example.com
 - **Phone** — e.g. +237 677 222 003
 - **Password** — e.g. Customer1!
 - **Confirm password** — same as above
4. Tick the box to **accept Terms and Privacy Policy**
5. Click **Register**

✓ **You should see:** A message asking you to verify your email, and a page to enter a 6-digit code.

11 Verify your email

1. Check your email inbox (and spam) for a verification code from CuisineEase
2. Enter the **6-digit code** on the verification page
3. Click to confirm
4. When successful, click **Continue to Login**

12 Log in as customer

1. Go to **<https://www.cuisineease.com/auth/customer/login>** or **[/auth/login](#)**
2. Enter your customer email and password
3. Click **Sign in**

✓ **You should see:** The customer dashboard with a menu and sidebar (Restaurants, Cart, Order History, etc.).

13 Browse restaurants and food

1. In the sidebar, click **Restaurants**
2. Find the restaurant you registered (e.g. Test Kitchen Buea) and click on it
3. Browse the menu — you should see the food item the manager added

4. Click on a dish to see its details (name, price, description)

14 Add food to your cart

1. On a dish page, choose any add-ons if shown (optional)
2. Add special instructions if you want (optional)
3. Click **Add to Cart**
4. Click the **Cart** icon or go to **Cart** in the sidebar

✓ **You should see:** Your item in the cart with the correct name, quantity, and price.

15 Add to favourites (optional)

1. On a restaurant or dish page, click the **heart** icon
2. Go to **Favorites** in the sidebar
3. Confirm the item or restaurant appears there

16 Pay and place your order

1. Open your **Cart**
2. Change the quantity using + / – buttons if you want
3. Choose order type: **Delivery**, **Takeout**, or **Dine-in**
4. On the payment side, select **Mobile Money** (recommended for testing)
5. Choose **MTN** or **Orange** and enter a phone number (e.g. +237 677 222 003)
6. Check the total — delivery fee may be added for delivery orders
7. Click the button to **place your order / pay**

Card and PayPal options may appear on screen but are not fully connected yet. Always use **Mobile Money** for testing payments.

✓ **You should see:** A success message and your cart becomes empty.

17 Check your order history

1. Click **Order History** in the sidebar
2. Find the order you just placed
3. Click on it to see details (items, total, status)

✓ **You should see:** Your order listed with status **New** or **Pending**.

18 Book a table (reservation)

1. Go to **Restaurants** and open your test restaurant

2. Find the **Tables** or **Book a table** section
3. Pick a date, time, and number of guests
4. Complete the booking steps and pay if asked (Mobile Money)
5. Go to **Reservations** in the sidebar to confirm it appears

19 Leave a review

1. On a restaurant or dish page, find the **Reviews** tab
2. Give a star rating and write a short comment
3. Submit the review

✓ **You should see:** Your review appears on the page after submitting.

20 Update your profile

1. Click **Settings** in the sidebar
2. Try updating your name or profile photo
3. Open **Notifications** settings and toggle an option
4. Open **Security** and confirm the page loads

PART C — Manager handles the customer order

Switch back to your **manager browser** (Step 6 login).

21 Find and update the order

1. Click **Orders** in the manager sidebar
2. Find the customer's order in the list
3. Click on the order to open details
4. Update the status step by step:
 - Click **Start preparing**
 - Then **Mark ready**
 - Then **Mark delivered**

✓ **You should see:** The status badge changes after each click.

22 Customer checks updated status

1. Switch to the **customer browser**
2. Go to **Order History** and open the same order
3. Refresh the page if needed

✓ **You should see:** The order status matches what the manager set (Preparing → Ready → Delivered).

23 Manager checks reservation and review

1. As manager, open **Reservations** — the customer's booking should appear
2. Open **Reviews** — the customer's review should appear

PART D — Public website (no login needed)

24 Browse the public pages

Log out (or use a fresh browser window) and visit these pages:

Page	Link	What to check
Home	https://www.cuisineease.com	Page loads, images show, links work
Menu	https://www.cuisineease.com/menu	Food items display
About	https://www.cuisineease.com/about	Text and images load
Contact	https://www.cuisineease.com/contact	Form and FAQ load
Privacy	https://www.cuisineease.com/privacy	Policy text loads
Terms	https://www.cuisineease.com/terms	Terms text loads

25 Send a contact message

1. Go to <https://www.cuisineease.com/contact>
2. Fill in your name, email, subject, and message
3. Click **Send**

✓ **You should see:** A success message confirming your message was sent.

PART E — Login, logout & security checks

Test	How to test	Expected result
Correct login	Log in with the right email and password	You reach the correct dashboard (customer or manager)
Wrong password	Enter a wrong password on purpose	A clear error message appears — you are not logged in
Logout	Click Logout from the menu	You are signed out; going back to the dashboard asks you to log in again
Customer cannot access manager area	While logged in as customer, try to open the manager pages	You are blocked or redirected — customer should not see manager tools
Forgot password	Go to Forgot Password, enter your email	A reset email arrives (check spam)

Mobile view	Resize browser to phone size or test on a phone	Pages still work and buttons are easy to tap
-------------	---	--

Full testing checklist

Tick each item when it works correctly:

- ☐ Restaurant registration (all 3 steps) works
- ☐ Manager receives email and can set password
- ☐ Manager can log in
- ☐ Manager can add, edit, and delete a menu item
- ☐ Manager can add a table section and table
- ☐ All manager sidebar pages open without errors
- ☐ Customer registration works
- ☐ Customer email verification (6-digit code) works
- ☐ Customer can log in
- ☐ Customer can browse restaurants and see menu items
- ☐ Customer can add items to cart
- ☐ Customer can pay with Mobile Money and place an order
- ☐ Order appears in customer Order History
- ☐ Order appears in manager Orders
- ☐ Manager can update order status (Preparing → Ready → Delivered)
- ☐ Customer sees updated order status
- ☐ Table reservation works (customer + manager)
- ☐ Review submission works (customer + manager)
- ☐ Customer profile/settings can be updated
- ☐ Contact form on public website works
- ☐ Public pages (Home, Menu, About) load correctly
- ☐ Logout works
- ☐ Wrong password shows a clear error

How to report a problem

If something does not work, copy the template below, fill it in, and send it to the CuisineEase team (cuisineease@gmail.com):

WHAT I WAS TRYING TO DO:
(e.g. "Place an order as a customer")

STEP NUMBER FROM THIS GUIDE:
(e.g. "Step 16")

WHAT I DID – step by step:

- 1.
- 2.
- 3.

WHAT I EXPECTED TO HAPPEN:

WHAT ACTUALLY HAPPENED:

MY ROLE: Customer / Restaurant Manager / Visitor

EMAIL USED FOR TESTING:

BROWSER: Chrome / Firefox / Edge

DEVICE: Phone / Laptop / Tablet

SCREENSHOT: [attach a photo of the screen]

Things that may not work yet (this is normal)

- **Google sign-in** — may not be fully set up; use email registration instead
- **Card and PayPal payments** — use Mobile Money (MTN or Orange) for testing
- **Chat / Messages** — may show "coming soon"
- **Restaurant approval** — new restaurants may wait up to 48 hours before the manager dashboard is active
- **Menu import button** — may not do anything yet
- **Some charts and statistics** — may show sample or empty data until real orders exist
